ACTION OF GRAIN EXCHANGES

Feverish Fluctuations in Consolidated Gas - Money Conditions Reported Easier.

(By Associated Press.)

NEW YORK, June 8 .- The professional limitations of the present stock market were still very manifest. In fact the slight evidence of small commission house buying, which was reported yester. day, and which aroused hopes that the professional campaign was meeting its first success in attracting outside interest was no longer perceptible to-day. U. S. re The sales underwent a decided shrink-U. S. 28. age. The character of the market was

age. The character of the market was not materially changed from recently prevailing conditions, rewer stocks were picked for a demonstration to attract attention by large dealings and rapid gavances. 'More attention was paid to the action of the grain markets and the effect of the government report on June 1st, condition of wheat was feared for the unfavorable effect it might produce on stocks when it appears on Monday. The market weakened quite generally during the first hour on this account. A better tone developed when wheat was found to be declining, but stocks turned downwards again later in the day. Some points of special strength among the grangers were due to reports of good crop conditions along these lines. A slightly firmer tone was reported for time-money to-day, due to decrease in the amounts offering. The sterling exchange market continued to advance in response to the easier money conditions, and demand for-remittance against maturing finance bills was said to be an important factor in that market. The continuance of the mark bills was said to be an important factor in that market. The continuance of the injunction against the entoreement of the 80 cents g is law, pending a decision in the suit to test the constitutionality of the act, caused feverish fluctuations in Consolidated Gas. The sharp rally in the wheat market was given as a cause for the late weakness in stocks, but the growing disposition to realize as the day progressed has been a feature of the market each day this week. The closing was easy.

Bonds were irregular; total sale, pur value, \$4.250,000.

the spot and 100 to arrive, a total of 1,550 hales. The demand was strong, off-rings limited.
Futures opened quiet, unchanged to 2 points up. Weather and crop reports were mixed, and the spot demand dominated the sintation and put July up strongly until it was 15 points ligher than yesterday's closing. The other active positions advanced 1 and 3 points. A fair business was done all day, in spite of the fact that Liverpool was closed. Toward the closing profit-taking caused a moderate reaction, and the market closed steady at a net advance of 5 points on July and a net decline of 1 point on the other active positions.

Cotton futures closed steady; June, 1658; July, 1653; August, 165; Esptember, 1643; October, 1623; November, 1639; December, 1622.

Sold week ending May 25th, 20,400 pounds; sold week ending June ist, 115,00 pounds; increase for week ending June ist, 23,200 pounds. Sold from September I, 1905, to June I, 1908, 14,018,800 pounds; sold from September I, 1904, 14,018,800 pounds; sold from September I, 1904, 14,018,000 pounds; decrease for 1906, 412,200 pounds. The recepts were much heavier the week past than last. Prices were about as for the past few months. The rain of last Saturday, Sunday and Monday produced one of the best past few months. The rain of last Saturday, Sunday and Monday produced one of the best in yours. Reports from reliable planters are that a large proportion of the crop had been planted. A number stated that they had planted their entire crop. Plants are plentiful and in good condition, which indicates that the crop will be planted quite early. The quentions are as follows:

DANVILLE TOBACCO MARKET.

(Reported by Dibreil Bros.)
Danville, Va., June 8, 1906.
The farmers have taken advantage of the time season we have recently had to set out the tobacco crop, and we estimate that fully so per plantied up to this time. For this reason the farmers have been kept quite busy at home, and consequently our sales have been very light. There is still some little tobacco left in the farmers' hands, which we think will be sold within the next two or three weeks.

Cotton Letter

By MILLER & COMPANY.

NEW YORK, June 8.—With Liverpool closed, our market was impelled upward early in the day by talk of big spot sales, which made shorts in July nervous and reports of weevil damage in some parts of Texas, drought in the southern part and grassy crops in the central and northern sections. Need of rain was also compalined of in the Savannah district. Prices advanced about 8 points above last night, but when December reached the 1012-cent level the volume of cotton for sale was too much for the market and a reaction set in which lost more than all the gain. There are runners that the May buill leader is in treaty to sell a hig block out of our local stock. In fact, it is claimed that more cotton has been sold recently than has been reported. July shorts were considerably disturbed by these runners. The weekly crop report of the Financial Chronicle is, by many, expected to show unfavorable conditions in some localities, besides a recognition of the weev'il damage. We do not share this view, and look forward to quite a favorable report to-morrow. There is every reason to believe that a strike or lockout will take place in Fall River within the next thirty days, owing to the denmand for a restoration of the old scale of wages by July ist. The mill owners are given only two weeks in which to give a reply, and there is little doubt that it will be a refusal of the operatives' demands, as the owners consider the present movement a direct violation of the agreement concluded through the mediation of Governor Douglas.

Liverpool will be closed to-morrow and our market will be influenced by the visible supply figures and Chronicle report.

TRADE CONDITIONS.

Business More Active Than Usual at This Season of Year.

(By Associated Press.) NEW YORK, June 8.—Bradstreet's tomorrow will say: Jobbing and wholesale lines are commencing to reflect the usual sensonal quietness; nevertheless, business is metanctive than is customary at this senson,

and fall orders for dry goods, clothing, shoes and inter-related lines are of very snoes and inter-related lines are of very good volume. Retail trade has been stim-ulated by warmer weather, and the out-look is for a full season trade. Indus-tries, with few exceptions, are active, although the time is approaching when the usual summer shut-downs will take atthough the time is approaching when the usual summer shut-downs will take place. Grain crop returns become more irregular as the season progresses, but that fact has not deterred purchases to any extent. As a whole, the situation is a detail to a year ago. The labor situation, though disturbed at different points, is considerably better. A good demand for dry goods and general supplies for San Francisco, where conditions are rapidly approaching normal, is noted at Western centers. The return flow of money from the country is unmistakably large, and easier rates are a feature, though some authorities disbelieve in permanently easier rates. Railway earnings continue very heavy, the increase for May being no less than fourteen per cent. on roads operating outside the anthractic coal fields, and bank clearings are considerably in excess of last year at this period. On the other hand, reports about the meat packing industry adversely affect trade in that line, while high prices tend to cause deadlocks in some lines, notably wool and some lines of building material. Lower prices for yellow pine, reflected in ease in Northern soft woods, have ovoked some new business. Business failures for the week ending June 7th number 162, against 127 last week; 194 in the like week of 1905.

TOBACCO SELLING WELL.

Medium and Poor Grades of Tobasso Bring Satisfactory Prices.

basso Bring Satisfactory Prices.

A large quantity of tobacco was sold in the tobacco warehouses yesterday, and some of the prices were very good. The commission merchants have decided to sell all the leaf on the floor, and not use the method of sampling as has here-tofore been in use. The sales will continue for probably a month longer.

The sale at Shockoe Warehouse yesterday reached the twenty-thousand mark. The weed was mostly of the common and medium grades, but the prices were satisfactory. At the Stonewall Warehouse 25,500 pounds were sold. The sale was a very good one, the highest price being 123.50, and the average over \$10. Shelburne and Son sold 40,000 pounds, and received the highest price of the day, \$24. At Crenshaw's, \$,000 pounds were sold, and the prices were reasonably good. ably good.
